

“How to Dj” Class Syllabus

2017

Instructor Information

Instructor

Dj Tone Da Boss

Email

bookme@djtonedaboss.com

Office Location & Hours

1.5 hours at Polk School, Fridays

General Information

Description

This Dj Course is not just about Djing but teaching the children that already have a trade in mind, a skill to take with them. During this course the kids will know how to identify the equipment, set the equipment up, entertain an audience, mix songs, and read the crowd.

Expectations and Goals

During this course the students are expected to retain information given from previous classes, focus, no studying is required however they may be test for refreshers. Respect is a requirement, and asking questions is wanted. The goal is that after this course the students may be able to get their own equipment and Dj local events.

Course Materials

Required Materials

Need a heading or a bullet? On the Home tab, in the Styles gallery, choose from all styles used in this syllabus.

| Week 7 July 28th | Event Prep | | |
| Week 8 August 5th | Event | | |

Week 7

Event Prep

Preparing for the next event, making sure your set is together. You know what songs you are going to play. What songs are requested by the audience and having backup/popular songs available in the event you take request. Knowing where to get songs is absolutely essential otherwise you have nothing to spin.

Exercise

Explain Cords and what they do

A trial run. All equipment will be unplugged. The students will have to setup, with no help, get their songs going, have the tempos set. Scratch, blend, mix, fade, adjust tempos

Reflect on everything they've learned.
